■ Dehydrated Foods

Vegetables & Fruits

OUR SUPPLIERS

Dehydrated Foods

At Zaimar Foods, we offer high-quality dehydrated foods. For over 10 years, we have been exporting dehydrated **sweet potatoes, carrot, ginger, and asparagus** to the **United States** through a strategic alliance with **Peru's leading producers**. We ensure compliance with the highest standards across the entire supply chain, from field selection to processing, packaging, and distribution. Our product line also includes premium dried fruits such as **pineapple, mango, banana, and goldenberry**.

SWEET POTATOES

We provide the finest selection of high-quality dehydrated sweet potatoes, exclusively tailored to meet the needs of the US market.

SWEET POTATOES

Dehydrated

DESCRIPTION

Freshly harvested sweet potatoes are carefully sorted, peeled, washed, trimmed, blanched, and air-dried. Additional cleaning, sorting, and food safety procedures are then performed before cutting or milling them to the desired size. The raw materials are sourced directly from farms across Peru.

- **Application status:** Ready to cook.
- **Sterilization:** Steam sterilization and infrared treatment.
- **Rehydration guidance:** 1:3.
- **Packaging:** Paper bags or corrugated boxes. Other options available upon request.
- **Shelf life/storage:** For optimal freshness, use within 18 months from the manufacturing date. Store in the original sealed packaging, away from direct heat, light and humidity.
- **Certifications:** All-natural, Kosher and others.
- **Cuts:** Multiple cuts available.

(*) The information provided is standard and subject to final confirmation based on the customer's required volumes, packaging, and cut/milling specifications.

CARROTS

Discover our premium dehydrated carrots — flakes and powder — crafted to meet the highest standards of the U.S. market.

CARROTS

Dehydrated

DESCRIPTION

Our field-fresh carrots are carefully washed, peeled, blanched, and air-dried, then precision-cut or milled to your desired size – all under strict quality and food safety standards.

- **Application status:** Ready to cook.
- **Sterilization:** Steam sterilization and infrared treatment.
- **Rehydration guidance:** 1:4.5.
- **Packaging:** Paper bags or corrugated boxes. Other options available upon request.
- **Shelf life/storage:** For optimal freshness, use within 18 months from the manufacturing date. Store in the original sealed packaging, away from direct heat, light and humidity.
- **Certifications:** All-natural, Kosher and others.
- **Cuts:** Multiple cuts available.

(*) The information provided is standard and subject to final confirmation based on the customer's required volumes, packaging, and cut/milling specifications.

A close-up photograph of several ginger roots, showing their characteristic knobby, textured appearance. The roots are light brown and are piled together, filling the entire frame. The lighting is warm, highlighting the natural texture and color of the ginger.

GINGER

We provide the finest selection of high-quality dehydrated ginger, exclusively tailored to meet the needs of the US market.

GINGER

Dehydrated

DESCRIPTION

Freshly harvested ginger is carefully sorted, peeled, washed, trimmed, blanched, and air-dried. Additional cleaning, sorting, and food safety procedures are then performed before cutting or milling it to the desired size. The raw materials are sourced directly from farms across Peru.

- **Application status:** Ready to cook.
- **Sterilization:** Steam sterilization and infrared treatment.
- **Packaging:** Paper bags or corrugated boxes. Other options available upon request.
- **Shelf life/storage:** For optimal freshness, use within 18 months from the manufacturing date. Store in the original sealed packaging, away from direct heat, light and humidity.
- **Certifications:** All-natural, Kosher and others.
- **Cuts:** Multiple cuts available.

(*) The information provided is standard and subject to final confirmation based on the customer's required volumes, packaging, and cut/milling specifications.

ASPARAGUS

We provide the finest selection of high-quality dehydrated asparagus (green and white), exclusively tailored to meet the needs of the US market.

ASPARAGUS

Dehydrated - Green

DESCRIPTION

Freshly harvested green asparagus are carefully sorted, peeled, washed, trimmed, blanched, and air-dried. Additional cleaning, sorting, and food safety procedures are then performed before cutting or milling them to the desired size. The raw materials are sourced directly from farms across Peru.

- **Application status:** Ready to cook.
- **Sterilization:** Steam sterilization and infrared treatment.
- **Rehydration guidance:** 1:6.
- **Packaging:** Paper bags or corrugated boxes. Other options available upon request.
- **Shelf life/storage:** For optimal freshness, use within 18 months from the manufacturing date. Store in the original sealed packaging, away from direct heat, light and humidity.
- **Certifications:** All-natural, Kosher and others.
- **Cuts:** Multiple cuts available.

(*) The information provided is standard and subject to final confirmation based on the customer's required volumes, packaging, and cut/milling specifications.

ASPARAGUS

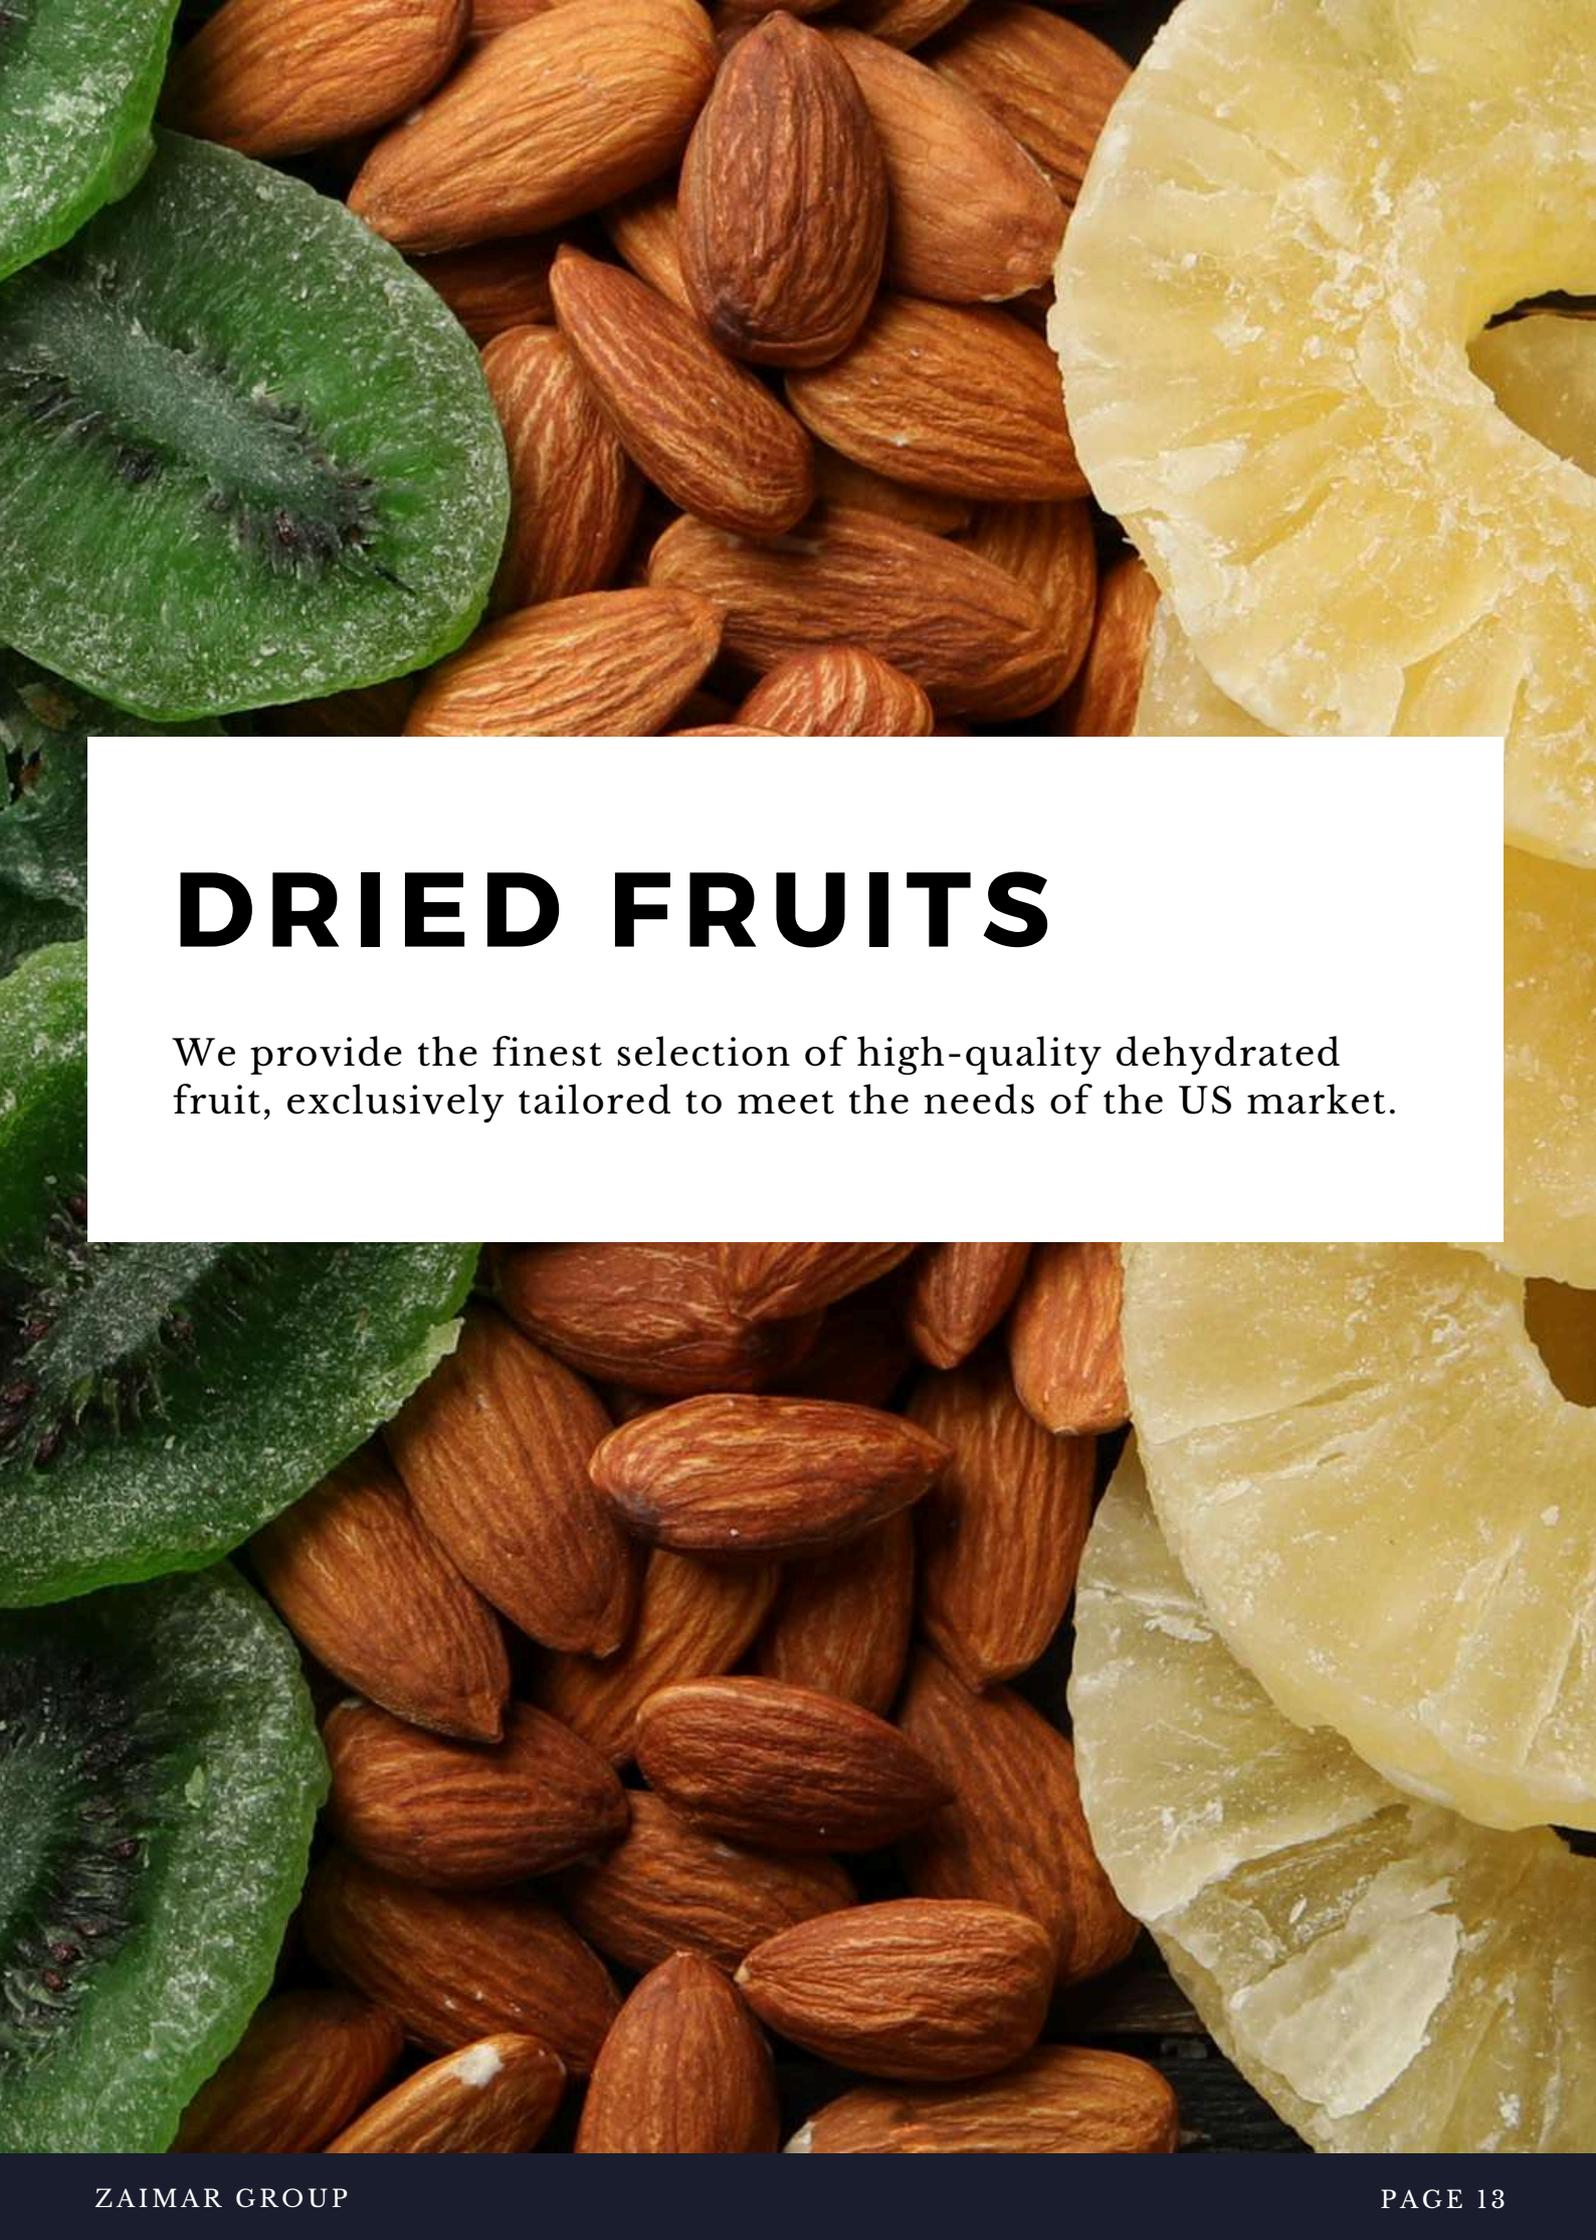

Dehydrated - White

DESCRIPTION

Freshly harvested white asparagus are carefully sorted, peeled, washed, trimmed, blanched, and air-dried. Additional cleaning, sorting, and food safety procedures are then performed before cutting or milling them to the desired size. The raw materials are sourced directly from farms across Peru.

- **Application status:** Ready to cook.
- **Sterilization:** Steam sterilization and infrared treatment.
- **Rehydration guidance:** 1:6.
- **Packaging:** Paper bags or corrugated boxes. Other options available upon request.
- **Shelf life/storage:** For optimal freshness, use within 18 months from the manufacturing date. Store in the original sealed packaging, away from direct heat, light and humidity.
- **Certifications:** All-natural, Kosher and others.
- **Cuts:** Multiple cuts available.

(*) The information provided is standard and subject to final confirmation based on the customer's required volumes, packaging, and cut/milling specifications.

A collage of dried fruits including almonds, kiwi slices, and pineapple rings. The almonds are in the center, kiwi slices are on the left, and pineapple rings are on the right.

DRIED FRUITS

We provide the finest selection of high-quality dehydrated fruit, exclusively tailored to meet the needs of the US market.

Dried Mango

100% dried mango — no additives, no preservatives. Gently dried at low temperatures. Naturally sweet, with no added sugar. Made from highland mangoes grown in the Jequetepeque Valley, Cajamarca.

Available whole (slices, chunks, or cheeks) or milled into mango powder.

Dried Pineapple

100% pure dried pineapple — no added sugar, preservatives, or additives. Gently dried at low temperatures in Cajamarca, using our special golden pineapples.

Available in slices, chunks, or as pineapple powder.

Dried Goldenberry

100% organic dried goldenberries (*Physalis peruviana*) — no additives, no preservatives. Gently dried at low temperatures. Naturally sweet and tangy, with no added sugar. Grown by small farmers in the highlands of Cajamarca, Peru.

A natural superfood — rich in antioxidants, fiber, and vitamin C.

Dried Banana

Peru remains a top-tier exporter of organic bananas, particularly to high-value markets in North America, Europe, and Asia.

At Zaimar Foods, we offer dried banana slices, as well as green and ripe banana powder — 100% natural and free from additives or preservatives.
